

## MICRO FOGGER

### Model: ULV-SJ4

Micro Fogger provides excellent control of droplet size, even for invisible 0.5-10 micron droplets needed by concentrated ULV chemicals.

Micro Fogger can treat 20-4,000 cubic feet per minute, reducing application time and labour-costs. And when you need high output and large droplets, the Micro Fogger is just as effective.

Micro Fogger delivers up to 150 ml/min in a mist of large (30 micron) droplets used in humidification, dust abatement and sanitizing work. Advanced Micro Fogger can apply either oil- or water-based chemicals. And it's easy to calibrate when changing liquids.
